The patents to Yoshikazu et al, Kwak and Ono et al each disclose a sewing machine comprising an X-Y table which supports an x carriage, a y carriage, and x and y electric motors coupled to their respective carriages through drive mechanisms that convert rotary motion into linear motion.

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of the claim 1 and its dependent claims is the inclusion in claim 1 of a y carriage mounted on an x carriage wherein the x carriage is mounted on a sewing machine for displacement only in an x direction, a y motor directly connected to said y carriage via a threaded spindle and a spindle nut and a sliding coupling which extends in the x direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
